

loving Sona aunts. In DOREIS.

First and foremost thank you very much for your both the letters and words of appreciation I am glad to hear these encouraging words from you yes! you are right that English is the difficult for me but I like to try again to learn it I send your regards to my parents and brothers and they are very happy and said to convey regards so warm wishes from my family members I got your photos too comparing to your schools here in our schools we do not have much outdoor activities its nice to see that you are doing course and I am impressed as I have seen my village and people start to do a job they will not think about going for further studying But you are very inspirational for me I wish you all the best for your studies and profession But when people wants to take a job in high post they start to take their degree. Thank you for detailed explanation about your summer holidays Christmas and school so that latter write give you few more whishes follow place from December to may.
