Dear sponsor

This is translated letter of your sponsored child

My dear Sona aunty, - Z S DOBRIS

Finally this year Christmas approached and I am her to wish you and also your family members Merry Christmas and Prosperous New Year 2016.

Now I am studying in ITI(Industrial Training Institution). I have chosen Computer Operating and Programming Assistant(COPA) course. My College name is Government ITI, Honavar. I have Workshop dairy, Logbook , Theory and Daily Dairy subjects. Mr. Vasudev is our teacher and he teaches us very well. In morning theory classes are teaching and in the afternoon we have practical classes. From 8.00a.m to 4.00pm we have classes every day. I come to college by 6.30a.m bus and go back at 4.00p.m bus. I have got bus pass too.

In the beginning of college days I did not know anyone in college. But now I have many friends. I have learnt computer operating, typing, paint and work pad. All these subjects are teaching in theory classes and then give to practice it in computer laboratory. We have to do as our instructor says. Now I can identify all the keys in keyboard.

Workshop and fees distribution programme was conducted for course students in the centre. I attended this workshop. Resource person motivated us not to discontinue course. Also he gave information on various job opportunities after the completion of course. We were divided in 3 groups and staff of the centre asked to make a bridge by using the given materials thread and sticks. Through this activity they explained us we have to set goal and to reach this goal we should study well, build up communication skills and competitive spirit. Even during the difficult situation of our college life we should not dropout this is what I got from this workshop. Regina Madam conducted this interaction part with groups and it was very helpful for us.

In our village Parents and Beneficiaries meeting was conducted. Ms. Regina and Ms. Priya had come to conduct this meeting. They explained us about the relationship bonding between parents and children. They also conducted an activity through which they motivated us to achieve success in academic years and thus the society should recognize us and feel proud of ourselves. Also we got knowledge on values which we should practice in our day- to- day life.

As I had written in last letter that I successfully completed 10th grade and after that I joined new college.

Like every year this year also I received Christmas gift in your name. Thank you very much. I believe everything in fine with you all. Here this year we had less rainfall and farmers have great loss. Lastly seeking your blessing I end this letter.

Your lovingly
Deepak
