Dear sponsor

This is translated letter of your sponsored child

My dear Sona aunty,

Thank you for your letter and greeting card and also for the Birthday wishes. You are the only person who sent me greeting on my every birthday and your card makes me very happy. I showed it to my friends too. My studies are going on well and I promise you for the good result. I am happy reading about your finland course and I wish you best of luck for it. Take care too. Now let me tell something about my school studies.

Our school teachers are conducting every month 20 marks test on each lessons and I got good marks in these tests. Every month one or 2 activities are conducted in school. I had taken part in the activities held in past months.

Cluster level sport competition was held in our school. I felt happy on this day seeing the students on the ground. 10 schools students had come to take part in it. Our school students won in Throw ball game, Kho-Kho game, running race. They got Championship award too and this made our school to be proud. Our throw team stood third in the district.

Some of the competitions were conducted by our teacher in school and I had performed in drawing competition. Children's meeting were held in Balkur village conducted by the centre animator and I took part in it. Pick and Speak activity was done to the children during this meeting, but I did not take part in it. My friend spoke nicely and after his performance I too felt that I would have taken part in it.

In school, I have finished midterm exam and after this exam Gandhi Jayanthi was celebrated in school. On this day our teacher told students of all the classes to clean the surroundings of our school and we enjoyed this activity. After this teachers announced the holidays for Dasara festival occasion. In these holidays I completed my school Home work. Sometimes I played with friends and I also helped granny in her work.

I thank you for the Christmas gift that I got from the centre. It's beautiful. I have all the gifts at home which I got every year and we are using it with care. I know that you all are busy with Christmas preparation isn't it? And on behalf of my family I wish you and all the Dobris family Merry Christmas and prosperous new year 2014

With love
Deepak
